

TVS 900

Specialty Sunroof - Twin Vent Series

Product Features:

- Twin Venting power inbuilt sunroof
- Highly protective automotive glass panel keeps out UV rays and heat
- Interior color-matched sliding sunshade
- Illuminated, Soft Touch® control panel
- The integrated safety system, anti-pinch, prevents closing if an object is detected

Specialty Sunroofs - Twin Vent

The TVS 900 is the world's first true Twin Vent Sunroof. This system gives you control over both glass panels and combines them to create a far greater range of open-air freedom. The TVS 900 features a spacious rear panel that can be tilted open to circulate air or be retracted in custom increments. Circulation without sun is also made possible by our vented interior color-matched sunshade.
